Mobile Application Development

Packages	Price (NPR)	Build Duration (Weeks)	Application (Field)	Key Features
Basic	80,000-1,50,000	2-4	1. Business Profile App 2. Personal Portfolio App 3. Educational Info App 4. Static Service App	• Android App (Single Platform) • Basic UI/UX Design • Static or Limited Dynamic Screens • Basic Form & Data Capture • Local / Firebase Database • Basic Admin Panel (Optional) • App Build & APK Delivery • Basic Testing
Standard	2,00,000-4,00,000	4-8	1. E-Commerce App 2. Booking / Appointment App 3. Delivery Service App 4. Learning Management App	• Android App (Scalable Architecture) • Custom UI/UX Design • User Login / Registration • Backend API Integration • Firebase / Cloud Database • Admin Dashboard (Web-based) • Push Notifications • Payment Gateway (Local / Online) • Play Store Submission Support
Premium	5,00,000-10,00,000+	8-16	1. Enterprise Business App 2. Ride-Sharing/Logistics App 3. FinTech/Wallet App 4. Large-Scale Marketplace App	• Android + iOS App • Advanced Custom UI/UX • Role-Based User System • Real-Time Features (Chat / Tracking) • Secure Payment Integration • Advanced Admin Panel & Analytics • Third-Party API Integrations • App Optimization & Security • Play Store & App Store Deployment • Post-Launch Support

Important Notes:-
1. Pricing may vary based on features, integrations, and app complexity
2. Hosting, domain, and third-party services are charged separately unless mentioned
3. Ongoing maintenance and upgrades available as add-on services

Packages	Yearly Maintenance & Services (NPR)	Monthly Maintenance & Services (NPR)	Included Services
Basic	10,00-15,000	900-1,250	1. Bug fixes & minor updates 2. Security patches 3. Basic support via email 4. Performance monitoring

Standard	20,000-25,000	1,700-2,100	1. All Basic package services 2. Regular feature updates 3. Push notification management 4. App store submission & update support 5. Analytics reporting
Premium	35,000-50,000	3,000-4,500	1. All Standard package services 2. Advanced feature updates 3. Custom integrations 4. Priority support (chat + call) 5. Performance optimization & crash reporting 6. UI/UX improvements 7. Cloud services monitoring & backups

Notes:
1. Charges depend on app complexity, number of active users, and third-party service integrations.
2. Monthly plan is typically ~10% of yearly maintenance for flexibility.
3. Premium is suitable for apps expecting heavy traffic or enterprise-level usage.
4. Either Pay Yearly or Monthly. Choose One.

Advanced & Emerging Solutions

Packages	Price (NPR)	Build Duration (Weeks)	Application (Field)	Key Features
Basic	70,000-90,000	3-4	Emerging Tech, Startups & Small Enterprises	1. Responsive UI (Mobile & Desktop) 2.Core Feature Set (1–2 primary features) 3. Basic Analytics Dashboard 4. Simple User Authentication 5. Push Notifications
Standard	1,20,000-1,50,000	5-6	SMEs, Tech Solutions, IoT & Automation	1. Everything in Basic 2. Advanced Features (3–5 main features) 3. Integration with 3rd Party APIs 4. Interactive Dashboard with Reports 5. Multi-platform Support (Android & iOS) 6. Cloud Database & Storage
Premium	2,00,000-2,50,000	7-9	Enterprise Level Solutions, AI/ML Apps & Fintech	1. Everything in Standard 2. AI/ML or Advanced Analytics Integration 3. Real-time Data Sync & Updates 4. Admin Panel with Role-based Access 5. Advanced Security Features (OAuth, Encryption) 6. Scalable Architecture for Future Growth

Important Notes:-
1. Pricing varies based on industry compliance, modules, users, and integrations
2. Hosting, domain, SMS, payment gateway, and third-party services are charged separately unless mentioned
3. Annual maintenance and upgrade support available

Packages	Yearly Maintenance & Services (NPR)	Monthly Maintenance & Services (NPR)	Included Services
Basic	77,000	7,000	1. Bug fixes & system stabilization 2. Security patches & dependency updates 3. Monthly system backup 4. Performance monitoring 5. Email support (SLA: 48 hours response)
Standard	1,32,000	12,000	1. All Basic services 2. Monthly backups with restore support 3. Model / service updates (minor AI, analytics, or logic tuning) 4. Database & API optimization 5. Cloud & SSL security monitoring 6. Priority support (SLA: 24 hours response)

Premium	1,98,000	18,000	1. All Standard services 2. Weekly backups & disaster recovery support 3. Advanced feature updates & system scaling 4. AI model retraining / IoT & blockchain node support (minor scope) 5. Full cloud server monitoring & cost optimization 6. API, third-party & microservice integration support 7. 24/7 support (SLA: 2–6 hours response) 8. Monthly performance, security & usage report

Note:
1. Yearly plans include one-month cost advantage compared to monthly billing.
2. SLA response time improves significantly with higher packages.
3. Maintenance covers existing system architecture, performance, and security.
4. Major R&D, new AI models, or large-scale architecture changes are quoted separately.
